PROFESSIONAL SUMMARY

Visionary technology leader with over a decade of C-suite experience driving digital transformation and innovation across global markets. Proven expertise in cloud-native architectures, GenAI solutions, and adaptive learning platforms. Skilled in technology strategy development, stakeholder communication, and mentoring high-performing teams. MBA-qualified with a strong foundation in electronics and communication engineering.

WORK EXPERIENCE

Chief Technology Officer

June 2025 - Present

SkyBlueMedia, United Arab Emirates

- Led strategic development of enterprise-wide digital transformation initiatives, leveraging cloud-native architectures and advanced analytics to drive a 40% increase in operational efficiency.
- Spearheaded adoption of cutting-edge technologies, including AI and IoT platforms, to enhance product innovation and customer engagement.
- Collaborated cross-functionally with C-level executives and technical teams to align technology strategy with business objectives, resulting in a 25% revenue growth.
- Established robust cybersecurity frameworks and compliance protocols, reducing data breaches by 60% and ensuring alignment with global standards.
- Optimized software delivery pipelines using DevOps methodologies, reducing time-to-market for key products by 30%.

Chief Technical Advisor

November 2023 - June 2025

RescaleLab, Singapore

- Pioneered the development of GenAI-powered personalized learning platforms, leveraging LLMs to deliver adaptive, learner-centric experiences.
- Designed and implemented robust AI models, achieving a 40 percent increase in learning efficiency and user engagement.
- Led cross-functional teams in enhancing platform scalability, supporting a user base growth of over 50 percent within 18 months.
- Developed strategic partnerships to integrate cutting-edge technologies, driving innovation and expanding market reach.
- Optimized software architecture to reduce system downtime by 30 percent and improve operational reliability.
- Spearheaded data-driven decision-making, enabling precise performance analytics and actionable insights.
- Conducted workshops and training sessions to upskill teams, fostering a culture of continuous improvement and technical excellence.
- Achieved recognition for transforming learning methodologies and advancing industry standards in educational technology.

Program Manager-PMO

June 2021 - June 2025

A*STAR - Agency for Science, Technology and Research, Singapore

- Orchestrated comprehensive stakeholder engagement strategies across cross-functional teams, executive leadership, and external industry partners to drive alignment on program objectives.
- Developed and optimized project plans, ensuring timely delivery of milestones and achieving 15% faster completion rates compared to previous benchmarks.

- Implemented robust risk management frameworks, mitigating project delays and reducing resource wastage by 20%.
- Oversaw budget allocation and financial tracking for multi-million-dollar initiatives, maintaining adherence to fiscal targets and enhancing cost efficiency.
- Led the adoption of project management tools and methodologies, improving team productivity and streamlining workflows.
- Facilitated executive-level reporting and decision-making processes through data-driven insights and performance dashboards.
- Mentored junior project managers, fostering a culture of continuous improvement and professional growth within the PMO team.

Senior Product Owner

September 2016 - April 2021

Continental AG, Singapore

- As a Product Owner for one of the leading vehicle manufacturers in the world, successfully executed and launched the Telematics product generation.
- Led cross-functional teams across development, QA, and business units to deliver high-quality solutions within strict deadlines.
- Collaborated with stakeholders to define product vision and roadmap, ensuring alignment with business objectives.
- Implemented agile methodologies to enhance development efficiency and reduce time-to-market by 20%.
- Resolved complex technical and operational challenges, resulting in a 15% increase in overall system reliability.
- Conducted performance assessments and technical reviews to maintain product excellence.
- Delivered impactful presentations to senior management, securing buy-in for innovative product features.

Senior Software Engineer

September 2015 - September 2016

Infoblox, Kuala Lumpur, Federal Territory Of Kuala Lumpur

- Designed and implemented scalable software solutions for network management applications, leveraging Java and RESTful APIs to optimize system performance.
- Led cross-functional teams to deliver high-quality software releases on schedule, achieving a 20% reduction in deployment time.
- Enhanced application reliability by introducing automated testing frameworks, increasing test coverage by 30%.
- Collaborated with stakeholders to define technical requirements, ensuring alignment with business objectives.
- Applied Agile methodologies to streamline development workflows, boosting team productivity by 25%.

System Analyst

July 2013 - September 2015

Intel Corporation

- Analyzed and optimized enterprise-level system performance, achieving a 20% improvement in operational efficiency through the deployment of advanced monitoring tools and refined workflows.
- Collaborated with cross-functional teams to identify system bottlenecks, leading to the successful implementation of solutions that reduced downtime by 17%.
- Conducted in-depth system assessments, leveraging data analytics to provide actionable insights and drive strategic decision-making.
- Designed and implemented scalable system architecture enhancements, improving reliability and scalability for future growth.
- Provided technical guidance and training to junior team members, fostering a culture of continuous improvement and knowledge sharing.

Module Lead

September 2010 - July 2013

ALTEN, Chennai, Tamil Nadu

- Efficiently managed team of 5 members including design, development and testing.

- Actively involved in customer specifications and requirements analysis, ensuring alignment with project goals.
- Delivered high-quality software solutions within stipulated timelines and optimized performance.
- Conducted risk assessments to identify potential project challenges and implemented mitigation strategies.
- Collaborated with cross-functional teams to enhance product features and customer satisfaction.
- Reviewed and provided feedback on technical documentation to maintain accuracy and compliance.
- Facilitated seamless communication between stakeholders to ensure clarity and consistency in deliverables.
- Mentored junior team members, fostering skill development and improving team productivity.
- Utilized Agile methodologies to streamline development processes and improve efficiency.
- Achieved a 15 percent reduction in delivery times through process optimization and effective resource management.

EDUCATION

Master of Business Administration (MBA)

September 2019 - October 2020

University of Information Technology and Management, Rzeszów

- Studied core business disciplines including finance, marketing, operations management, and organizational behavior.
- Developed strategic thinking and leadership skills through courses in business strategy and management principles.
- Gained hands-on experience through capstone projects focused on solving real-world business challenges.
- Mastered financial analysis, market research, and decision-making frameworks essential for business growth.
- Acquired knowledge in global business trends and cultural competencies for international markets.
- Learned to use business tools and methodologies such as SWOT analysis, Six Sigma, and project management software.
- Enhanced communication, negotiation, and team collaboration skills critical for business leadership.

B.E, ELECTRONICS AND COMMUNICATION

September 2002 - July 2006

Anna University, Chennai, Tamil Nadu
